We, really want to thank all the people who made the E-Cindi Program possible. Now we can really live up to our Vision and Mission, to develop the Pre-school Child mentally and physically; to be school-ready, with the necessary educational tools and with the E-Cindi Program; it is possible.

The E-Cindi Program help us, the teachers to give much more help to the slow learners, especially in a large group like ours. The fast learner can continue with his/her work while watching the E-Cindi Program, while the teacher helps the others.

The E-Cindi Program is very helpful, because it is a worked-out program with all the resources, and it is based on the level of the Grade R Child.

Thank you very much for the E-Cindi Program. The Children really love and enjoy it.
