Jack & Jill pre-primary school was established in 1997 by Mrs Rahab Jacobs, when she recognised the need in the community and she is still the principal of Jack & Jill. When she started the school she was the only teacher, but now has a staff of 4 members.

She started off at the Methodist Church hall, but moved to the rugby club facilities, due to the growing number of kids. Mrs Jacobs is very fortunate to be in the process of building new facilities for the school.

It is Mrs Jacobs' aim to provide the community with affordable education opportunities, especially for families with a low income. She wants to ensure that the children have the opportunities they need to succeed in life.

Mrs Jacobs received some help from her community when raising funds and also with some administration work at school. The government financially supported her school in an irregular fashion.
