

LIEFIE LOP CRÈCHE PROJECT BUSINESS OUTPUT:-

Objectives are to ensure children play and learn in circumstances that are beneficial for their vital pre-school development years. To ensure that menu's will provide the daily nutritional needs of the children, to the children at all times. Our direct output is to create work and provide an income for staff members that are part of the project. To empower every parent or family members on how to take care of the children at all times. Our indirect output it is expected that the visible end results the Liefie Lop crèche achieved to develop the children mentally and physically to be school ready. To protect the rights of children. Invoke interest of the community in childhood development. To have acquired more resources to deal with early childhood sustainability.

Patricia Veronica Jonathan is born 26 May 1959. Cold winters day. I am divorced and have two children. Eraldine Veronique 19 years of age, and Camellia Carmen 14 years of age. After my divorce my children and I stay with my father and eldest brother. My qualifications are N4. Wish I could go further with my studies.

Liefie Lop crèche, especially the grade R class is very thankful for E-cindi for the programme that they provided us with. It is so much easier with this programme, now we can really live up to our vision and mission. We really want to thank our donors for the programme. The E-Cindi programme is very helpful, because it is a worked out programme with all the resources, and based on the level of the grade R child.

GOD BLESS EACH AND EVERYONE WHO HELPED US WITH THE PROGRAMME

Yours Faithfully

P.V.Jonathan
